

CORPORATE SOCIAL RESPONSIBILITY STATEMENT

BUILDING A SUSTAINABLE PORT. MAKE IT HAPPEN.

As the Port of Rotterdam Authority, we create economic and social value by working together with customers and stakeholders to achieve sustainable growth. In doing so, we contribute to the Sustainable Development Goals (SDGs) of the United Nations. We are a reliable partner and act with honesty, integrity and transparency. We abide by the law and are guided by our moral compass. The principles and rules of conduct in our company code form the basis for this.

Sustainable Development Goals

CSR themes

SAFE AND HEALTHY ENVIRONMENT

Safety is a top priority. In addition, we are constantly working to create a healthy and attractive living environment and are committed to the preservation of nature and biodiversity.

CLIMATE & ENERGY

We are contributing to the fight against climate change. The Port of Rotterdam is pre-eminently the place where energy transition and circular economy are taking shape.

PEOPLE & WORK

We are working towards an inclusive port where people can develop their talents; a port with employment at all levels for current and future generations.
